01/05/20 3rd alarm New Haven 55 Benton St. dwelling fire—A reported basement fire in the cities Westville section turned out firefighters just before eight p.m. Engine fifteen arrived reporting smoke showing from a one and a half private dwelling. As companies began their operations, they were soon hampered by Collyer's Mansion conditions in the basement. Engine companies tried to make a push, but were unable to gain headway on the fire. A second alarm was transmitted as a heavy smoke condition pushed from the entire dwelling. Companies were withdrawn from the dwelling to regroup with a new attack. Members of Rescue One soon reported they were trying to make a push in the basement, but had fire over their heads. Chief of Department Alston immediately ordered the emergency evacuation of the basement. Several members narrowly escaped the flash over like conditions in the basement as maydays were transmitted. A third alarm was transmitted on the box as members were now ordered to go to defensive operations. The fire soon took hold of the first floor and extended throughout. Multiple hand lines worked for more than two hours to bring the fire under control. One firefighter and one civilian were transported to local hospitals. the cause of the fire is under investigation.

CFPA Member Spotlight

Josh Boyajian

Q. When did you join the CFPA and why? And what positions do you hold/or have held, with the club?

I joined the CFPA in early 2019. I was on a trip in Detroit with fellow members Tenca and Duda. They talked me into joining. It was a good decision and I'm happy I'm a member now looking back.

Q. What cities or towns do you primarily cover?

I primarily cover the City of Chicago, the Chicagoland suburbs, and The City of Detroit. I will be taking a little break from the fire photography hobby for a few months while I'm in the academy, but I look forward to getting back into it 100% once I'm done and get settled in.

Q: What kind of camera equipment do you use?

I use Nikon cameras. I have a Nikon D750 with a 24-70mm 2.8 lens. I also have the 70-300mm lens that I use for zoomed in shots. I started with the Nikon D3200, upgraded years later to the D7200, and just last year, upgraded to the D750.

Q: Have your images been published? (Notable achievements, covers, etc.)

I have had many images published with Firehouse magazine. I currently hold 3 cover shots, and many hot shots in various issues.

Q: Do you have a website, or where do you post your images?

I do have a website that I share with my friend Drew. He also contributes a lot to our website, but unfortunately he isn't a member of the CFPA yet!

Our website is chi-townfirephotos.smugmug.com

Q: What city do you like to buff the most Boston/New York, buffalo, or Detroit?

The best city I like to buff the most is Detroit. I've been going to Detroit for about 6 or 7 years now. Detroit is a very unique city with a bunch of great people. I've developed many great friends along the years going to Detroit, on the fire department and also local photographers. Detroit is very easy to navigate and get around, and there is always something to photograph.

Q: What was the first fire that you ever photographed?

I believe the first fire I've ever photographed was a 2-11 Alarm fire in Cicero, Illinois in 2011. I used to buff fires with my dad when I was a kid and take pictures with my cell phone, officially with a camera was in 2011.

Q: In addition to fire ground photography, what else do you enjoy photographing? What are your other hobbies?

I enjoy photographing skylines of big cities, (mostly Chicago), vacant buildings, and once in a while doing some engagement photos for friends of mine. My other hobbies include playing softball weekly during the summer, and traveling across the county, exploring different cities.

Q: Your style, and what you look for on an emergency scene? Your preference? Action, static etc....

My preference for emergency scene photography is action shots of firemen doing work. I do like overall scene shots but I really like documenting the men & women doing their job and getting dirty.

Q: What is the biggest fire you've ever photographed?

The biggest fire I ever photographed was this past April in Chicago, Illinois. It was a 5-11 Alarm Fire with multiple specials @ 2501 N Keeler. It was a good distribution warehouse, well involved on arrival.

Q: What fire department(s) are you affiliated with, if any, and how?

I've worked part time for two departments right outside of Chicago for the past 7-1/2 years. The Stickney, Illinois Fire Department and the Westmont, Illinois fire Department. I just recently was hired by the Indianapolis Fire Department in Indiana and just finished my move down this weekend.
