# MEMBERS AT WORK

CFPA member John Dumin operating at the Berlin tanker rollover. He's also a Canon guy.

# The Organization

Recently several members have reported that their images have turned up on a well known scammers Facebook page. Even though it did not deter this individual from screen shotting and attempting to sell these photos, we were still able to identify the members photos through their watermarks.

Please remember to watermark your photos. If you need help with the process or would like help with a logo for the mark please contact us.
